TruNatur

Premium Polymer Veneers

TruNatur is a Premium Polymer Veneer faced panel that provides a high-performance alternative to natural veneer.

The polyolefin foils have been engineered to create a very durable and realistic smooth sanded and lightly emboss finish.

The foils are bonded to a range of substrates using a reliable PUR adhesive system and the solution is complemented with matching edge tape.

Charred Ash

TruNatur Colours

The carefully selected decor range includes a premium selection of Ash, Oak & Eucalypt species that includes white, blonde, brown, grey and black tones.

Match your Indoor & Outdoor Cabinetry

3 woodgrains for TruNatur match StyleLex to create a seamless flow from indoor to outdoor.

With a cohesive colour palette and design flexibility, you can create a unified style that flows effortlessly from your indoor spaces to your outdoor retreats, ensuring a beautiful and functional continuity throughout your home.

Primary features & benefits:

- Natural veneer look and feel.
- Consistent colors and patterns.
- Pre-finished surface with no need for sanding or coating.
- Very high UV resistance so no colour change due to sun exposure.
- Each panel is supplied with clear protective masking film so it can be processed easily on a wide variety of machinery.
- The nano coated surface is very resistant to scratch and scuffing and is very easy to clean and maintain.
- The laminated panels are GreenTag Platinum
- Health rated and use EO MDF substrates ensuring minimal environmental impact.

StyleLex Makes beautiful covered outdoor cabinetry

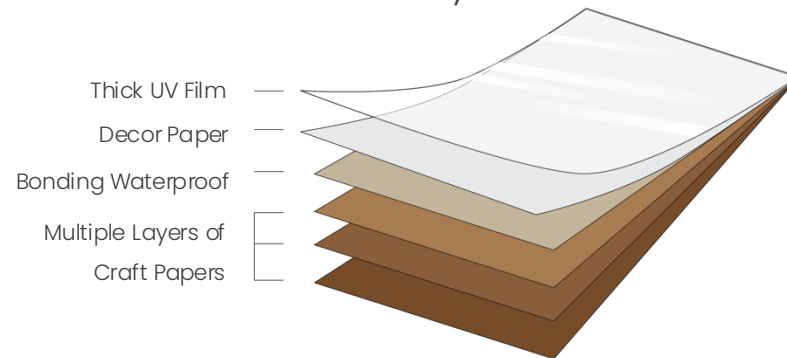

StyleLex is a flexible system to create beautiful cabinetry for covered outdoor areas. This unique system offers an extensive range of surface finishes, including matte, woodgrain, and textured options.

StyleLex features include:

- Weatherproof panels
- On-trend colour range
- Double-sided balanced panels
- Scratch and impact resistance
- Durability and hygiene
- Matching edge band
- Carcass panel solutions

StyleLex HPL Panel

- 5 years in the making
- It is our own special formula made up of a combination of Extruded polymer sheet and Organic fibres
- We laminate high UV protected HPL using waterproof glue
- The polymer allows it to be waterproof, and the organic fibres gives further structural integrity that prevents bowing

Why we created StyleLex?

The most commonly used product in Premium alfresco kitchen doors is Compact Laminate

StyleLex vs Compact Laminate Comparison

A modern rooftop terrace at dusk. The space features a rectangular swimming pool in the center, surrounded by a light-colored stone tile deck. To the left, there is a covered dining area with a round white table and four chairs, and a built-in kitchenette with a sink and counter. To the right, there is a lounge area with a sofa and two armchairs. The terrace is enclosed by a dark, modern building with large glass windows and doors. The sky is dark with some clouds, and the city lights are visible in the background. The text "StyleLex Project Windsor" is overlaid in the center of the image.
