# TruNatur Plywood MR Lightweight Falcatta

Built for longevity, TruNatur panels combine UV stability, scratch resistance, and scuff protection with its nano-technology as standard.

TruNatur Plywood MR Lightweight Falcatta panels create luxury cabinets, vanities or custom furniture when weight is a consideration. These finishes offer a smooth flawless surface with unsurpassed depth of colour or natural timber grains. Uses high quality MR lightweight plywood. Ideal for interior fit out for caravans and RVs - from furniture and kitchen cabinetry, to vanity doors and panels.

Certified with a Global GreenTag Platinum Health rating, TruNatur provides architects and designers with a sustainable, health-conscious solution. As a cost-effective alternative to natural veneer, it delivers faster project turnaround while achieving the same richness and sophistication of timber.
